Meet Pat Luoma

Pat Luoma, **Accentucare**

president and lead care coordinator, has been providing in-home care assistance in the Northland for over a decade. At the same time she has run a flourishing massage therapy business, treating clients with medically-diagnosed health conditions. She has taught college-level classes in holistic health and massage therapy; provided workshops in self care for area caregivers and social workers; and been an advocate for hospice patients and veterans.

Pat has also owned and operated multiple successful businesses over the past 35 years, building a reputation as a trusted leader both in the workplace and community.

Whether through work or volunteer pursuits, Pat has devoted her life to helping people find their way to wellness and fulfillment.

Our accent is on you!

The mission of **Accentucare** is to provide exceptional supportive care to older and disabled adults in the comfort and security of their own homes. We do this by developing meaningful relationships that promote trust, preserve dignity and quality of life, and honor family values.

Accentucare is locally owned and operated by caring professionals who understand the Greater Duluth community. From skilled nursing care to simple companionship, we want to provide the best, most consistent care for you or your loved one. As your advocate, we work with family members, friends and healthcare providers to ensure your health and safety while honoring your dignity and independence.

Our caregivers serve residents of St. Louis County and are available 365 days a year, 24 hours a day – including holidays. We work with most insurance companies and can help you determine your eligibility and home healthcare benefits. We are fully insured and hold a Minnesota Department of Health Class A license for home care providers.

How are we *different?*

There are many great in-home care services in the Northland. How does **Accentucare** stand out? First, ***our accent is on you*** and the care and respect you deserve. Our caregivers take the time to really listen to your needs and concerns; we are never in a hurry and never leave a task undone. We honor your need to continue living as independently as possible and work hard to help you re-establish your social and leisure activities – and get back to enjoying life!

We care for the “whole” you

Your total health, inside and out, is very important to us. Because of that, our approach to your care is thorough and holistic. We are always looking for ways to enhance your life – at home and in the community – and are committed to going above and beyond any specified service. We want you to be all that you can be!

We support families

We understand and support families as we celebrate their strengths and values. We know new transitions can be stressful. We help alleviate that stress so your family relationships can remain solid and rewarding. We provide counseling to family members to help them cope with your changing needs, and respite care so they can recharge and renew.

We earn your trust

Our care is consistent. We'll never throw you a curve ball as routine is so important to your care. We provide peace of mind through our dependable service and 24/7 availability. Your trust and confidence in our caregivers is paramount.

We advocate for you

We advocate for you in every situation: with family members, healthcare and other service providers, medical suppliers, social workers, clergy, etc. We are always on your side and help you make the connections you need to stay on track.

We empower our caregivers

Finally, our caregivers are a wonderful, committed, and hand-picked team of mature professionals who are trained to provide you with customized, quality care and empowered to recognize problems and solve complex issues quickly. And, we take care of our caregivers by providing them a living wage, flexible schedules, on-the-job training, mentoring, and professional development.
